About Us

By sharpening our knowledge in the three decades spent in this domain, we, **Golden Machinex Corporation**, have become the most trusted **manufacturer** of a huge gamut of machinery. Our company has been serving numerous customers across India who belong to different segments. They prefer to choose our range of **Laser Metal Cutting Machine, Paper Lamination Machine, Power Press Machine, Pedestal Drilling Machine, Hydraulic Press Brakes, Portable Welding Machine**, etc. These creations exhibit high and smooth performance as well as consume less power. In addition to this, the machines we offer have long service life as they are manufactured from high grade material.

Big orders received by our team are fulfilled within the promised duration. Safe and quick shipment is guaranteed from our end. For the convenience of customers, we have created a separate department day is open day and night to solve their queries.

Quality Assurance

We at Golden Machinex Corporation, follow a total quality policy in order to bring the best possible range of Six Sigma quality Machines. Our auditing process starts from the first stage of input material procurement, where our quality experts check the sourced material, and it lasts till each our machine is packed. Also, our engineers supervise the production activity and vigilantly check that our range matches to the international standards.

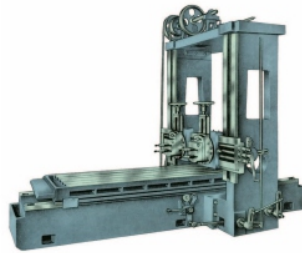

Infrastructure And Team

Having an extraordinary taste for modern technology, we have facilitate our infrastructure with high-tech equipment. From our manufacturing department to the quality auditing panel, every unit has latest automation. Thus, our infrastructure allows us to create offerings such as Portable Welding Machine, Paper Lamination Machine, etc., with great features in huge quantity. Our huge business is managed by a knowledgeable team of employees that consists of manufacturers, quality controllers, packaging personnel and marketing executives. Under the guidance of our mentor Mr. Manoj Agarwal, all the members strive everyday to bring-forth improved solutions and services.
